

# Samsung hw-e550 manual

**Document has moved here →**

My TV is a very new Samsung 55ES800 hooked up through a Samsung HWF sound bar. Up until now the Anynet+/ARC was working great. Watching netflix.

No audio may be caused by: External device is off and not outputting audio; TV is set to the wrong source; Sound bar is set to the wrong source

We are an authorized distributor of Samsung Parts and Products for Samsung Electronics in the United States.

The Samsung HW-E550 (\$369.99 direct) is a curious beast. It s a soundbar speaker with a wireless powered subwoofer, which is mainstream enough.
